Segment Industry – Mechanical Drive Elements

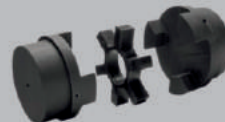

Taper Bush Pulleys

- ▶ Standard range of metric pulleys conforming to ISO/IS Groove specifications and run out tolerances.

Jaw Couplings

- ▶ Compact & Economical general purpose flexible couplings.

Pin Bush Couplings

- ▶ Flexible Couplings for High Torque Applications using High Tensile Steel pins and Nitrile Rubber Bushes.

Gear Couplings

- ▶ All Steel flexible geared couplings for high power & high torque applications in Industries.

Tyre Couplings

- ▶ Standard Tyres in High performance compound or Chloroprene Rubber tyres make them suitable in most conditions.
